## Fill the Gap: Building a Diverse STEM+Arts Pipeline

### DINNER SPONSORSHIP OPPORTUNITIES & BENEFITS

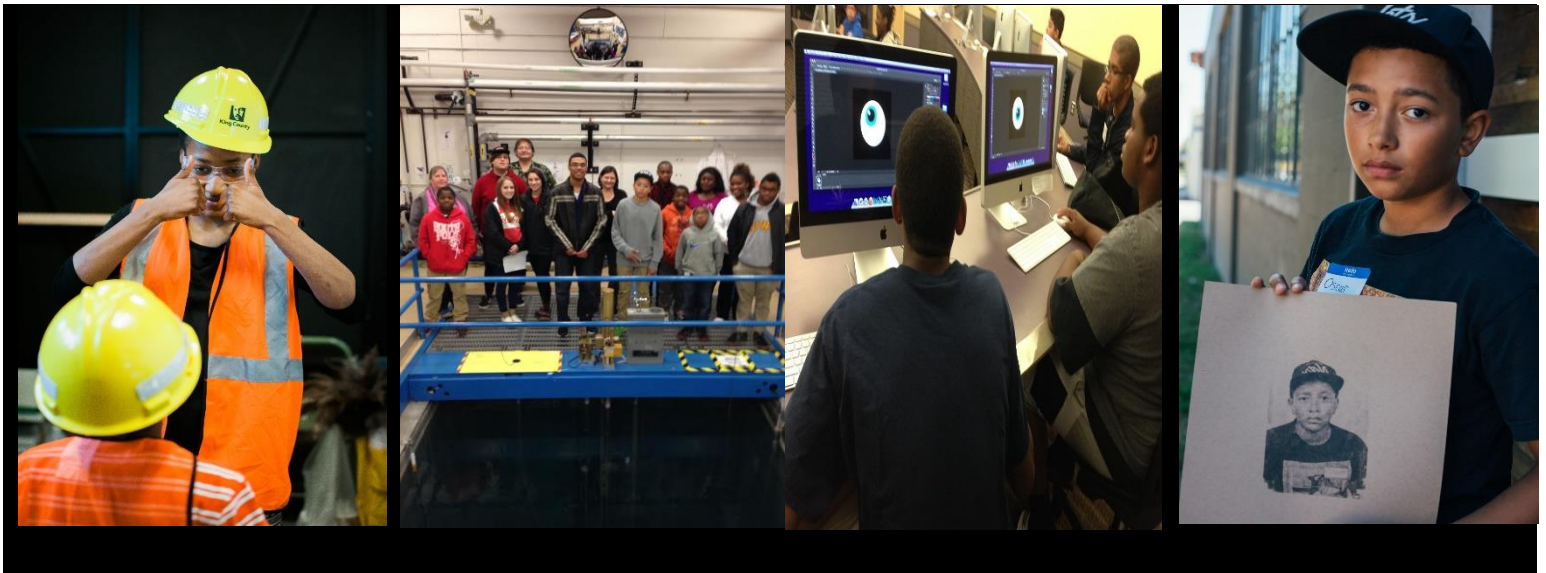

iUrban Teen aspires to grow our influence and impact by becoming the nation's leading STEM+Arts program for urban youth ages 13 to 18. The program brings together underrepresented teens for a variety of enrichment programs to spark their interest in STEM+Art careers.

What started as a small local learning event in the Portland Metro area with 125 Teens and their parents, has now become a regional program with programming in every major West Coast city. Your support can help us provide education services to local families. So far 78% of our high school graduates are attending college and pursuing STEM based degrees, with 89% of current iUrban Teen youth now considering STEM degrees after participating in our programs.

Right now is your time to help us grow our organization, program offerings and leadership. Your support by being a **Fill The Gap Breakfast Sponsor** will help us reach our goal of expanding our programming and leadership team to help more than 3,000 youth in the Portland area attain the exposure and training needed to be successful in STEM+Art careers.

Please take a look at ways you can help
